

HMI-SCP

HMI-SCP touchscreen interface for use as part of a smoke ventilation control system. The user is able to drill down zone by zone to view the current system status as well as give a manual open or close/reset command per zone.

Customise

The system is fully customisable, allowing the user to input zone names, project name and contact information for service and support.

Application

Smoke
Ventilation

Part Codes

HMI-SCP-7	HMI-SCP Touchscreen Interface 7"
HMI-SCP-10	HMI-SCP Touchscreen Interface 10"

Technical Data

Primary Voltage	5V DC
Operating Condition	-5°C - +40°C
Size	HMI-SCP-7 = 218mm (w) x 150mm (h) x 60mm (d) HMI-SCP-10 = 316mm (w) x 236mm (h) x 60mm (d)
Delivery	1 x Touchscreen, 1 x Back Box
Cable Size	5-Core

Compatible With

SCP-500	SCP500 Control Unit 24V 5 Amp
SCP-800	SCP800 Control Unit 24V 8 Amp
